and if in his opinion authentic, to send to the Senate any further information in the possession of the Government relative to any activities of the Imperial German Government affecting the international relations of the United States." Senator Hitchcock reported the resolution to the Senate at 3 o'clock and asked unanimous consent for its immediate consideration. There was no objection. It at once developed that the Committee on Foreign Relations had not been unanimous in its action.

Chairman Stone announced that he would offer the following amendment: "And also to inform the Senate as to whether the information in his possession respecting the letter signed 'Zimmermann' originated with any government or the official of any government engaged in the present war, and if so to inform the Senate of the facts."

Senator Stone's action was construed as intended to cast doubt on the authenticity of the Zimmermann note.

## CURED HIMSELF OF THE LIQUOR HABIT

A Missouri Man After Drinking for Thirty-Five Years Banished His Craving for Liquor With a Simple Home Recipe.

Mr. Thos. J. D. O'Bannon, a well known resident of Missouri, living at R. F. D. No. 3, Fredericktown, Mo., banished his craving for liquor with a simple recipe which he mixed at home.

Mr. O'Bannon recently made the following statement: "I am 51 years old and had drunk for thirty-five years. My craving was so great I could not quit liquor. More than a year ago I had the following simple recipe filled and began taking it and it entirely banished my craving for liquor. To 3 oz. of water add 30 grains of muriate of ammonia, a small box of Varlex Compound and 10 grains of peppin. Take a teaspoonful three times a day. Any druggist can mix it for you or supply the ingredients at very little cost. This recipe can be taken of your own accord or given to any one secretly in coffee, tea, milk or in food, as it has no taste, color or smell and is perfectly harmless. I believe any drunkard can cure himself with this simple recipe." Adv.

## ZIMMERMANN TELLS REICHSTAG ABOUT LANSING'S NOTE

LONDON, March 1.—Speaking in the Reichstag to-day, Foreign Secretary Zimmermann referred to "a telegram from the Swiss Minister at Washington saying that America desires to avoid war, provided Germany is willing to treat on the question of the submarine blockade."

The quotations were furnished in a wireless despatch from the official German press agency, picked up here.

Zimmermann was also quoted as declaring "Germany is in all ways convinced that the submarine warfare ought not to be restricted."

The telegram which Zimmermann mentions was undoubtedly transmitted by Dr. Ritter at Washington at a time immediately after Washington was advised of the German submarine warfare and before President Wilson broke off relations. This feeling on America's part was semi-officially stated at the time.

"Germany is resolved," Zimmermann added, "at all costs to maintain her blockade, but naturally desires to reach an understanding with America without clashing with this object."

"After her resolve to use her strongest weapon, Germany cannot withdraw. Secretary of State Lansing's reply that the United States was prepared to treat only if Germany withdrew her resolution of Jan. 31 was not acceptable, thus dooming the negotiations to failure before they were really begun."

## TWO AMERICAN SURGEONS AND TWO VETERINARIANS ON YARROWDALE SET FREE

BERLIN, Feb. 28 (by wireless to the Associated Press via Saville, March 1).—Two American ship surgeons and two veterinarians brought to Germany on the steamship Yarrowdale left Berlin this morning on the way to Denmark.

Eighteen Hundred Menitions Workers Laid Off. PHILADELPHIA, March 1.—Eighteen hundred men employed by the Baldwin Locomotive Works in making 13-inch shells for the Entente allies were laid off to-day because of completed contracts, according to an announcement by the company. Within the next six months other foreign contracts for war munitions will have been completed.

Senator Lodge said he cared little regarding the form of his resolution. "Nothing is further from my mind than to suggest criticism of the President," said Lodge. "We ought to have this information—the people ought to have it to know whether the document is true or not. If we are to act together, we ought to have that fact."

LODGE INSISTS ON HAVING FULL INFORMATION. "I have every reason to believe that the inquiry is not distasteful to the President. We must not act on newspaper reports and we ought to have the official information. The President is asking great power. For one I think we ought to give it to him. And we ought to have this information at that connection."

Senator Pomeroy, Democrat, of Ohio, said that in addition to the Associated Press despatches, the Senate had the statement of Senator Swanson that the Zimmermann despatch was authentic.

"Substantially correct," interjected Senator Swanson.

"If there is any variance, we ought to know that fact," returned Senator Pomeroy. "The resolution amply protects the President—permitting him to give the information, if compatible with public interests. We all realize the gravity of the situation."

Senator Norris wanted to have the resolution referred with instructions to report to-morrow, but Senator Stone objected to any instructions. It was so referred and the debate on that point ended.

## SWISS MINISTER IS FACING RECALL FOR HIS ACTIVITY

WASHINGTON, March 1.—An accumulation of activities of Dr. Paul Ritter, Swiss Minister to the United States, and Germany's indirect representative here, has tended to put him in the near-persona non grata class.

While Government heads refused to comment officially on the matter, some privately admit that the Administration is coming to believe that Dr. Ritter not only inherited von Bernstorff's diplomatic work here, but that he has taken up, as well, certain German propaganda work that may force a flat show down between him and the State Department.

The first evidence of this sort of work was Dr. Ritter's dissemination of reports that Germany was anxious for a German-American conference at which all points at issue between the two nations could be discussed. This propaganda work was started exactly one week after severance of German-American relations.

What chiefly annoyed Secretary Lansing and President Wilson was the fact that Dr. Ritter made his "peace conference" suggestions to newspapermen several hours before the State Department had any idea of them. It was learned to-day that his hurried trip to the State Department within a few hours after he "permitted" the "peace conference" news to go out through the press was in response to an "urgent request" that he call on Secretary Lansing.

It is understood that his plan—Germany later announced it emanated from Dr. Ritter himself and not from the German Foreign Office—with such a brusque rebuff that it fell absolutely flat.

Officials believed that the plan, by the very nature of the way it was made public, was an appeal over government officials' heads to the people, chiefly the pacifist element, to urge such a conference.

The latest bit of obvious German propaganda work by Dr. Ritter came yesterday, when he—once more through the press—let it be known that Germany proposed to detain five American consular officers until she was assured all her consular officers and other officials were not being held up by the German Government.

Diplomats required that Dr. Ritter communicate this to the State Department. Diplomatic ethics, at least, also required that he comment in the State Department or another branch of this Government to publish the fact.

Although Secretary Lansing refused absolutely to comment in the case, he plainly showed resentment at Dr. Ritter's action, and it was later learned that the Department is investigating the question.

## GERMAN NOTE PLOTTING WAR ON THE UNITED STATES WITH AID OF MEXICO AND JAPAN

ON THE FIRST OF FEBRUARY we intend to begin submarine warfare unrestricted. In spite of this it is our intention to endeavor to keep neutral the United States of America.

If this attempt is not successful, we propose an alliance on the following basis with Mexico:—That we shall make war together and together make peace. We shall give general financial support and it is understood that Mexico is to reconquer the lost territory in New Mexico, Texas and Arizona. The details are left to you for settlement.

You are instructed to inform the President of Mexico of the above in the greatest confidence as soon as it is certain that there will be an outbreak of war with the United States and suggest that the President of Mexico, on his own initiative, should communicate with Japan suggesting adherence at once to this plan. At the same time offer to mediate between Germany and Japan.

Please call to the attention of the President of Mexico that the employment of ruthless submarine warfare now promises to compel England to make peace in a few months.
